Passion for
plastics

The HROMATKA GROUP is one of the leading distribution groups in the European plastics market. With our local brands and strong partners, the HROMATKA GROUP has an extensive portfolio with an international orientation and great technical expertise. Highly-qualified local experts are active in ten countries and advise customers in order to provide solutions to their problems. The programme is completed by the group's own compounds, which are manufactured in three factories under the brand name SAX Polymers.
